

Deciding the Rankings

Teams will be ranked according to their scores in the following criteria, beginning with (1). In the case of a tie, rankings will be determined according to the next criterion, and so on.

Victory: 1 point

Criterion (1): Victory points

Criterion (2): OP%

The average win rate of the teams you have played against.

*A higher OP% indicates that your team has played against teams with high win rates.

Criterion (3): GW%

The win rate within your team.

*Ex: If a team wins a match 3–0 (all members won) and another team wins 2–1 (two members won), the GW% will be higher for the team that won 3–0.

Criterion (4): OGW%

The average win rate within the teams you have played against.

*A higher OGW% indicates that your team has played against teams where each member has a high win rate.

- Each team will be assigned numbers (1), (2), and (3) upon registering.

Please register before the event check-in, as these numbers will be used for matchups.

- Matches will begin for all three team members simultaneously.
