## CARD GAME

## Turn Flow

The game is started by the first player and proceeds according to the flowchart below.

### Refresh Phase

- 1 Return all attached DON!! cards on your field to your cost area.
- 2 Set all rested cards on your field as active.

### Draw Phase

Draw 1 card from the top of your deck.  
(The player going first does not draw a card on their first turn.)

### DON!! Phase

Place 2 DON!! cards from the top of your DON!! deck in your cost area face-up.  
(The player going first can only place 1 DON!! card on their first turn.)

### Main Phase

You may perform actions ①~④ in any order and as many times as you wish.

#### ① Play a Card

Play a card by resting DON!! cards in your cost area equal to the card's cost. Event cards are trashed after they have been played.

#### ② Attach DON!! Cards

Attach DON!! cards in an **active state** to your Leader or Character cards.

\*When a card with DON!! card(s) attached to it leaves the field, the attached DON!! card(s) are rested and placed in your cost area.

#### ③ Use a Card's Effect

Use the effects of the Leader or Characters on your field by fulfilling their conditions.

**DON!!×1** ... Can be used if 1 DON!! card is attached.

**DON!!-1** ... Can be used if you return 1 DON!! card from your field to your DON!! deck.

**Activate (Main) ①** ... Can be used if you rest 1 active DON!! card in your cost area.

#### ④ Attack

Attack by resting an active Character or Leader on your field. Be aware that Characters cannot attack on the turn they are played. Players also cannot attack on their first turn.

### End Phase

All "during this turn" effects are ended.

## Opponent's Turn

## Battles

### ① Attack Step:

Rest 1 active Character or Leader on your field and designate a target to attack. Any "When Attacking" effects will activate and resolve after the target is selected.

### ② Block Step:

The player being attacked may activate their Character's **Blocker** ability.

### ③ Counter Step:

The player being attacked may play a **Counter** card from their hand.

### ④ Damage Step:

Compare the power of the attacking and defending cards. The attacking card will win if its power is **greater than or equal to** the power of the card being attacked, leading to one of these results.

**If a Leader is attacked:**

...The defeated Leader takes 1 damage.

**If a Character is attacked:**

...The defeated Character is K.O.'d and trashed.

**If the attacking Character is defeated:** ...Nothing happens.

When your Leader takes damage, add 1 card from your Life area to your hand.

If that card has a **Trigger**, you may reveal the card and activate its **Trigger** effect.

If a player **doesn't have any cards in their Life area** and their Leader takes damage, they **lose** the game.
